The team at King's Fibreglass celebrate the sale of their 200th trailer

We would like to take this opportunity to introduce King's Fibreglass Trailers, a division of King's Fibreglass Pty Ltd. We have been manufacturing quality Fibreglass Components for many years and have a broad customer base Australia wide. Recently, we have celebrated the sale of our 200th plus Dog Wash Trailer.

> STANDARD FEATURES

The slim, futuristic, light weight design was developed to make the trailer easy to back, easy to tow, and improve the driver's vision when towing. The weight of the trailer is approximately 500 kg. This weight does not include a full tank of water which will add approximately 100 kg to the overall weight.

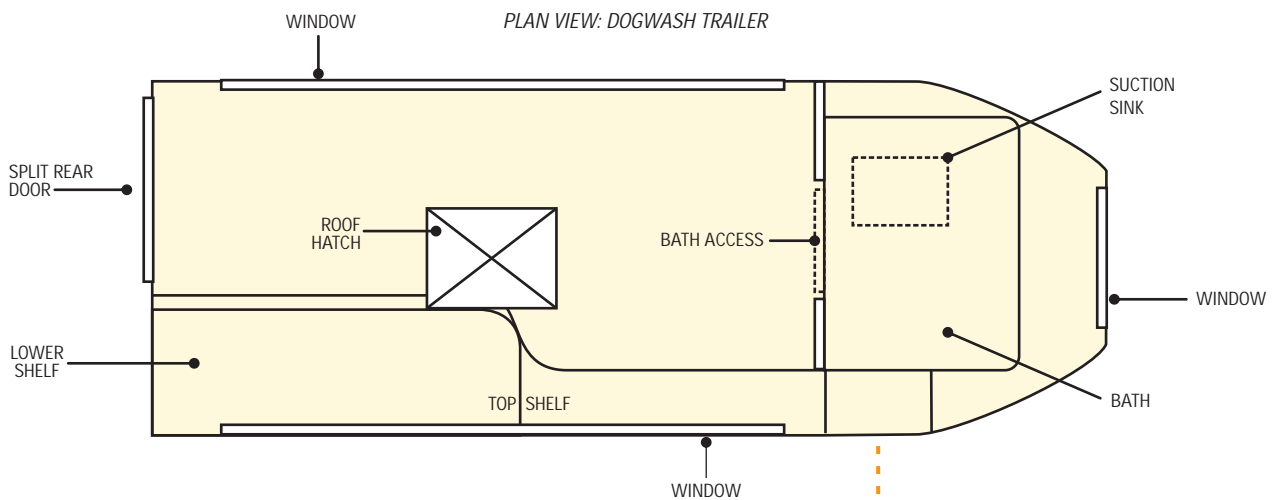

> DIMENSIONS

Maximum height from the ground to the roofline	2.5m
Maximum overall width	1.7m
The overall length from the tow ball to the rear of the trailer	3.8m
